

Finding Professional Interpreters

Press release from the Dolmetscher-Gruppe Frankfurt n.r.V., PR: idealduplex | www.idealduplex.de

Finding an interpreter who understands your specialist subject is more important than ever. In Germany the designation “interpreter” is not legally regulated, which means that when clients are looking for suitable specialists the crucial points are their qualifications, their professional experience and their understanding of the subject matter. Above all when it comes to complex facts from the fields of business, law, medicine or technology it is especially important to find a language expert who both understands the subject and can provide interpretation of a professional standard. Of course, interpreting services from trained professionals will cost more than engaging “lay persons”, but you will also have advice, quality control and legal security, which can save you a great deal of time and money.

The Dolmetscher-Gruppe Frankfurt regards itself as a network of independent interpreters who have many years of professional experience. The services provided by the members of the German professional association Bundesverband der Dolmetscher und Übersetzer e.V. (BDÜ) comprise simultaneous, consecutive, liaison and whisper interpreting in a large number of languages and specialist areas. Potential clients can make contact with the expert of their choice quickly and easily via our internet pages (www.dolmetscher-gruppe-frankfurt.de). Our list of members, which provides clear information about the various languages and topics covered by our individual interpreters, will help you to find the right contact person with only a few mouse clicks. You can reach some one quickly to discuss your requirements. Our central location in Frankfurt am Main means that it is possible to take on assignments at very short notice.
